INTRODUCTION ABOUT A. O. SMITH WATER TECHNOLOGIES

Introduction

About A.O. Smith Water Technologies

Sustainability and innovation have become the keywords defining A.O. Smith's history. A.O. Smith continues to hold its leading market position by implementing an innovative approach to production and marketing. This approach encompasses the whole process from the selection of equipment used in production until the final end products are built.

Quality

A.O. Smith Water Technologies has adopted the principle of providing the best quality in water treatment equipment with high level technical support since 1995. The technical staff with great expertise increases and improves production quality and capacity by pursuing new developments and researching constantly. This is the key to maintain the costs at reasonable rates while the quality rises continuously.

New technologies

A.O. Smith Water Technologies was founded in 1995 and the company is continuously in pursuit of new technologies. Our company aims to find the most effective solutions such as in Reverse Osmosis, water softening, deionization, post treatment systems. In sales and marketing, our goal is to advertise new technology and equipment practically. This provides us to develop the process to find the solutions to your requests and keep you updated about new technologies. Our main target is to present the solution our customers need correctly and with optimum price. We are able to serve the best quality of the wide range of our own brand products and imported goods.

WHAT We Do

A.O. Smith continues to hold its leading position in the industry, guiding the market with its innovative technology and production philosophy. This high-tech engineering approach encompasses the whole production process from the selection of materials and components used in the production of the systems that we have designed until the yielding of the final end products.

Project and Design

In accordance with your special needs and conditions expert project engineers of A.O. Smith. Project Department will design the perfect system for each customer with extensive analysis and studies. Thanks to the these specially designed systems, you will achieve maximum efficiency and effectiveness with optimum price.

Laboratory

A. O. Smith's advanced technology and professional engineering applies to the entire process including the system design, selection of components and materials, manufacturing and testing of system efficiency.

In accordance with this approach, specifically designed and manufactured systems are tested in A.O. Smith Laboratory to achieve maximum efficiency.

Offers and Sales

In accordance with our customer's needs, our expert engineers will design the system and after mutual agreement with our customers the system will be manufactured. At every step of the process our engineers will be constantly in, contact with our customer.

Installation

The process includes on-site installation, necessary controls and maintenance, personnel training by A.O. Smith engineers for all domestic and abroad systems.

After Sales Support

A. O. Smith's customer satisfaction policy does not end with the sales of the system. Customer satisfaction means to support and solve all problems and questions of our customers during design, installation, operation and maintenance with our professional experts.

FOR CAMPS

Mobile R.O. Water Treatment System

Manufacturer: A.O. Smith Water Technologies

Capacity: 30 m³/h

MOBILE REVERSE OSMOSIS WATER TREATMENT SYSTEM FOR BOTTLING PLANT

FOR BOTTLING PLANT

Mobile R.O. Water Treatment System

Manufacturer: A.O. Smith Water Technologies

Capacity: 10 m³/h

MAKE-UP WATER TREATMENT SYSTEM

MAKE-UP Water Treatment System

Manufacturer: A.O. Smith Water Technologies
Capacity: 150 m³/h

FOR HOSPITALITY

Multimedia Filtration System

Manufacturer: A.O. Smith Water Technologies
Capacity: 200 m³/h

HYDROPONIC GREENHOUSE WATER TREATMENT SYSTEM

HYDROPONIC GREENHOUSE Water Treatment System

Manufacturer: A.O. Smith Water Technologies
Capacity: 1000 m³/day

REVERSE OSMOSIS SYSTEM FOR BOTTLING FACILITY

FOR BOTTLING & BEVERAGE FACILITY

Reverse Osmosis System

Manufacturer: A.O. Smith Water Technologies

Bottling Facility Capacity: 100 m³/h

Beverage Facility Capacity: 5 m³/h

PHARMACEUTICAL Industry

Manufacturer: A.O. Smith Water Technologies
Capacity: 200 l/h

ULTRAFILTRATION WATER TREATMENT SYSTEM

ULTRAFILTRATION WATER TREATMENT SYSTEM

Manufacturer: A.O. Smith Water Technologies
Capacity: 20 m³/h

RIVER Water Treatment System

Supplier: A.O. Smith Water Technologies
Capacity: 200 m³/h

OPEN CHANNEL Ultraviolet Disinfection System

Manufacturer: A.O. Smith Water Technologies
Capacity: 432 m³/h

GREY WATER TREATMENT SYSTEM

GREY Water Treatment System

Manufacturer: A.O. Smith Water Technologies
Capacity: 10 m³/day

DOMESTIC PACKAGE WASTE WATER TREATMENT PLANT

DOMESTIC Package Waste Water Treatment Plant

Manufacturer: A.O. Smith Water Technologies

Capacity: 100 m³/day

ARSENIC Removal System

Manufacturer: A.O. Smith Water Technologies
Capacity: 80 m³/h

FILTRATION AND SOFTENING Systems

Manufacturer: A.O. Smith Water Technologies
Capacity: 150 m³/h

MEMBRANE Technologies

Supplier: A.O. Smith Water Technologies

Capacity: 225 m³/h

SEA WATER DESALINATION PLANT

SEA WATER Desalination Plant

Manufacturer: A.O. Smith Water Technologies
Capacity: 210 m³/day

JEOTHERMAL Pump Station

Manufacturer: A.O. Smith Water Technologies

Submersible Pump Capacity: 450MSS

30m³/h - 52°C

Booster Systems Capacity: 140MSS

6x150m³/h - 52°C

LIFT Pump Station

Project: A.O. Smith

SYSTEM 1 Capacity: 30.000m³/h - 25MSS

SYSTEM 2 Capacity: 3.600m³/h - 82MSS

SEWAGE LIFTING Station

Manufacturer: A.O. Smith Water Technologies
Capacity: 150 m³/h
